Summary

Technology has always been fascinating to me. The deep-rooted obsession made me question time and again everything about everything. So here I am Pursuing my Undergrad in Computer Science and Engineering from Budge Budge Institute of Technology (BBIT'24).
I am a coder in the morning and a muscle head in the evening. I also love reading books on self-improvement and productivity, my favorite being " The 7 Habits of Highly Effective People" by Stephen R. Covey

"OPEN SOURCE IS ALL ABOUT GIVING BACK TO THE COMMUNITY AND GWOC IS THE HEART OF IT"

GirlScript Winter of Contributing is a three-month newly established initiative by GirlScript Foundation to be conducted during winters. GWOC encourages individuals to share their knowledge and ideas to develop technical skills and gain valuable experience in the field of tech education. Over the course of the program, participants can contribute to a variety of themes under the guidance of an expert facilitator.
